VPN Guidance

1. Teachers and students of Donghua University can visit campus network resources outside of school via VPN. If you want to visit resources of library and Academic Information System, you can log in https://vip.dhu.edu.cn/ to visit. You can also set the address as vip.dhu.edu.cn after installing the VPN client.

ł	tccount
Title	东华大学
Gateway	vip, dhu, edu, cn
Username	Username
Port	443
Certific ate	
Auto Start	VPN
SyferLock	Authentication 🗌
	Ok
	Cancel

2. Users' VPN service can only be used for yourselves. You need to be responsible for everything you do using the VPN. You cannot lend the VPN service to anyone in any cases. Otherwise Information Office have rights to stop your service. In the meantime, because the account of VPN adapts unified identity authentication system's username and password, you can log in School digital campus information portal(http://my.dhu.edu.cn) to know how to use the account. You can also get personal teaching, scientific research, personnel, property etc via the account. Please notice that it will affect your benefit if you lend your account to others.
