

## How to Use Library Database without VPN

Example: ACM Database (for Computing Machinery)

1. Open the website <http://dl.acm.org/>
2. Click Sign In

3. Click "Institutional Login" and choose "Donghua University", then to the identity authentication page. Please enter the username and the password. The username is your student ID and the password is the one the same as your academic information system (The one where you select courses).

Login to your account

Sign in with your Web Account on ACM Digital Library.

Select your institution:

Select your institution: ^

Search Institution name Q

Chongqing University of Posts and Telecommunications

Dalian University of Technology

**Donghua University**

East China University Of Science And Technology

Fudan University

Harbin Engineering University

Harbin Institute of Technology

 **東華大學**  
DONGHUA UNIVERSITY

Login to ACM Digital Library

**ATTENTION:**

1. There may be slight difference among different databases. You could go to website <https://ds.carsi.edu.cn/> and enter “Donghua University”. Then also the same identity authentication process. The username is your **student ID** and the password is **the one the same as your academic information system (The one where you select courses).**

After the authentication, you will be able to see the detailed handbook of using each website ( After each website, you could click “查看” to see the details of usage).

2. If you enter the wrong passwords five times, the system will be locked for half an hour. If your account is locked on one computer, you could try again on another computer.

3. If you forget your password, which is the same as the one from your course selection system. You could go to website <http://lxs.dhu.edu.cn/dheas> to reset your password.

Click “Forgot password” and then reset the password.
